

Special Water Meter Instructions

Penn Hills residents who use a significant amount of water outside for washing cars, gardening, swimming pools and hot tubs can obtain a special meter

tubs can obtain a special meter from your water authority. There is a cost associated with the purchase and installation of these special meters. The benefit is that sewer fees are not assessed on

the portion of the water being used outside your home because it does not enter the sanitary sewer system.

Outside water flows into the storm sewer system or absorbed into the ground.

Contact your water authority, for more information on these special meters.
