RE: Notification of New Billing Agent for Penn Hills Municipality Sewage Fees

Dear Customer:

Beginning July 1, 2008, Wilkesburg-Penn Joint Water Authority will become the new sewage billing agent for the Municipality of Penn Hills. You will receive your first combined water/sewage bill from Wilkesburg-Penn Joint Water Authority starting on July 1, 2008 and this will represent usage from the April/May/June 2008 billing cycle. All billings from the Wilkesburg-Penn Joint Water Authority should be paid to Wilkesburg-Penn Joint Water Authority.

All billings prior to July 1, 2008 will continue to be generated by Central Tax Bureau and these bills should be paid to the Central Tax Bureau. Initially, residents may get two bills, one from Central Tax Bureau and one from Wilkesburg-Penn Joint Water Authority. The reason for this is that Central Tax is billing for water consumption used three months ago and Wilkesburg-Penn Joint Water Authority will be billing for water and sewer for the current period. Please bear with us during this initial billing, since in the end, it will benefit the Municipality and the residents from a clarity standpoint, since the sewage bill will now coincide with the consumption on the current water bills.

Sincerely,

The Municipality of Penn Hills
